About Us

Our experienced team works with clients seeking assistance with social and community participation. In addition to supporting our clients with participating in social, recreational and community activities, we also offer support with transitioning to independent living, respite care and other individualised assistance.

Our clients have choice and control over the nature of the services we provide, allowing them to shape their support to suit their needs.

We work sensitively and appropriately to support people from all backgrounds, shaping our service to best suit the needs of the individual. Our team are experienced in working with people with a history of homelessness and those with complex mental health issues, offering a safe, supportive service to all clients.

The Family Access Services Difference:

The best interest of our clients is at the heart of everything we do at Family Access Services, delivering best practice services, aligned with the principles of the NDIS Code of Conduct.

Our highly experienced team provide a professional and compassionate service, with our ultimate goal always to achieve a safe and empowering experience for clients.

With our flexible delivery model, Family Access Services means we can respond quickly to your needs and our experienced team allows us to manage complex cases with sensitivity and empathy.

Safety first approach

Professional, experienced team
